TAPPING UNEXPLOITED POTENTIAL

www.shabeel-group.com

Our Story

Who We Are.

For more than 30 years, our businesses have delivered goods and services to governments, companies and people with the aim of tapping the unexploited potential of the Horn of Africa. In the last ten years, we have consolidated our operations and invested significantly in contributing to an enabling environment for commerce and investment in Somalia while providing solutions that add value to the economy of the region.

We take a long-term view in everything we do and believe in sustaining success through commitment and confidence in our people and our region. We help our partners deliver and perform better in a challenging but exciting environment. Our goal is to provide turnkey solutions that address the constraints to unlocking our region's economic potential. As we do this, we are also working to lay the

Our Philosophy

We believe in the potential and promising future of Somalia. To realize this, we are investing in infrastructure and services to create an enabling environment, provide solutions that contribute to improved regulation, mobility, financing and skills and spur economic and social development.

What We Do

1. Security and Risk Management

We are a leading private security provider offering comprehensive risk management solutions across Somalia and the region. Our range of solutions and services includes tailored journey management solutions, static security, maritime security and risk management consultancy services. Our in-depth expertise and decades of experience makes us an ideal partner for any organization working in the region. Throughout our security division, we maintain a commitment to working with our clients to solve tough challenges for humanitarian, commercial and diplomatic operations. We support a broad range of sectors including shipping, natural resources as well as development and humanitarian efforts.

2.Integrated Project Support Services

In more than 15 locations across Somalia and the region, our teams provide a one-stop shop for clients operating in the region. **Our clients can rely on us for their construction projects, logistics, waste management, facility management services, fuel supply, manpower, administrative services and supply chain solutions.** True to our principle of transforming difficult into easy, we work with our clients to provide turnkey solutions for their projects, delivering efficiently and cost effectively without compromising standards all over the world.

Our experienced team of staff have worked on thousands of projects, combining years of expertise, operational skills and cultural diversity to ensure the success of mission-critical operations. Regardless of where our staff and operations are, our clients can count on a transparent, ethical and disciplined commitment

3. Automotive and Transport Solutions.

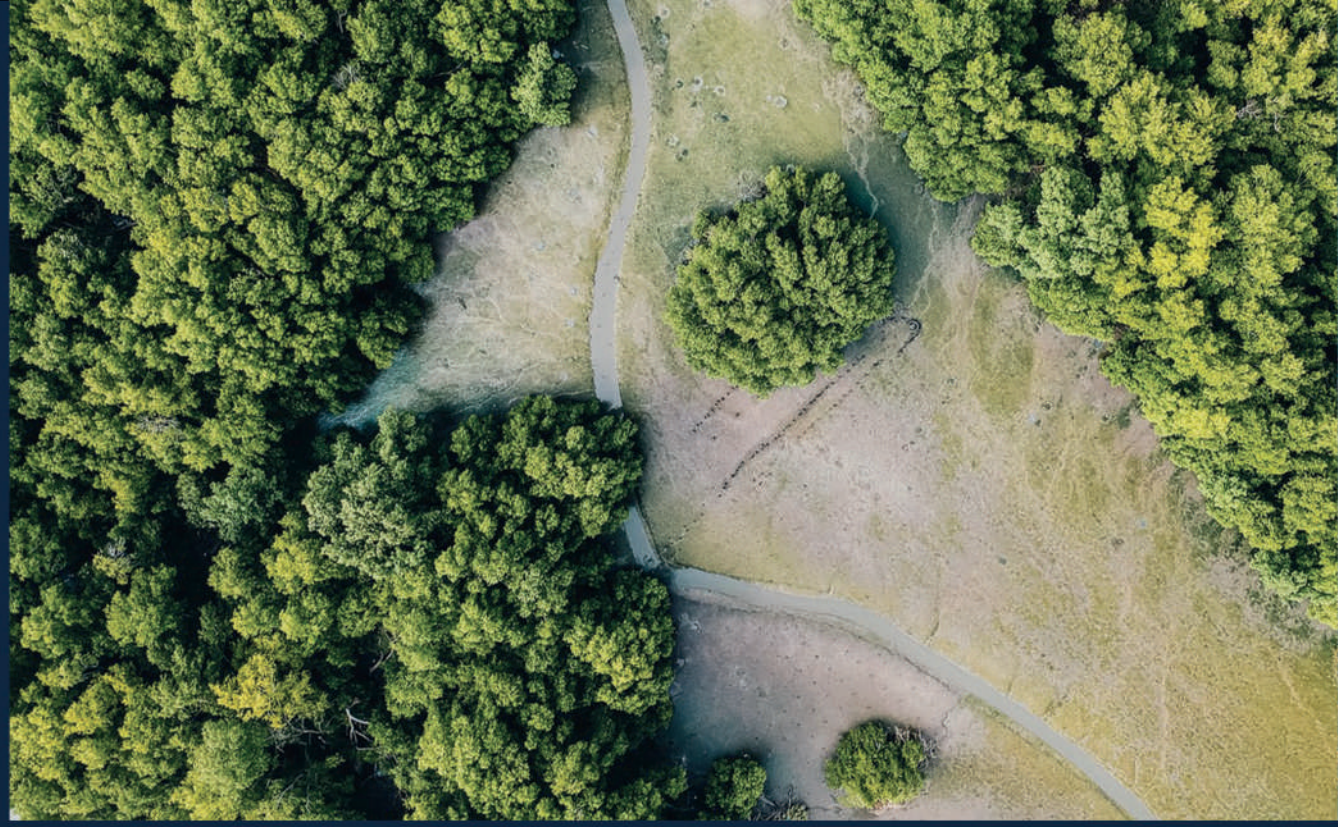
We offer great products and services for motorists, fleet owners and contractors with an assurance of excellence, quality and reliability. We work with respected automotive brands and maintenance partners to provide genuine parts, diagnostic expertise and fleet solutions that provide cost-efficiency for our clients. In addition to this, we provide transport solutions to move cargo and passengers in the region by road, sea and air.

4. HVAC

Shabeel has partnered with Daikin, the world's leading HVAC company to provide air conditioning solutions for homes, businesses and industries in Somalia. Leveraging Daikin's unique cutting-edge technology, Shabeel works with developers, homeowners and commercial operators to ensure comfortable and sustainable living and working environments. All our products and services are eco-friendly and sustainable.

5. Agribusiness

We are investing in improving food security in Somalia and the region by tackling malnutrition, diversifying food sources and innovating how we grow, transport and process our food. We participate in all stages of the value chain from research, farming, transport, processing and marketing products to markets across Somalia and internationally. Our agribusiness division is structured as a social entrepreneurship, working with small holders, farming households and cooperatives to access farming tools and implements, finance and market access. We remain committed to ensuring self-sufficiency as an engine for Somalia's growth.



7. Finance

We believe in providing solutions that promote compliance, transparency, ease and opportunities for people and businesses. Our diversified business interests include commercial banking operations, insurance and financial market utilities.

More importantly, we focus our investment on extending financial services to the millions of unbanked populations in our region and promoting lending, financial literacy and financial freedom to spur entrepreneurship and local commerce.

8. CSR

We support causes aimed at promoting stability, addressing humanitarian needs and encouraging our young people to be innovative and find solutions to the challenges we face. Despite being our hope for the future, young people face the most challenges, and we work to support efforts to provide education, skills and awareness to address these challenges. We support the preservation of Somali traditions, culture and heritage and more importantly environmental sustainability initiatives to address the challenges of climate change.

9. Sustainability

Our success depends on sustaining our environment, our people and our business. We operate in a region with a rich but delicate ecosystem. We are committed to the responsible use of environmental resources, to championing conservation and to generate substantial savings for our community and for our clients.
